

Postdoctoral Opportunities at Lawrence Livermore National Laboratory

From working at the frontiers of climate research, to using the world's most powerful supercomputers to reaching toward fusion at the National Ignition Facility, the laboratory has always been at the forefront of the world's most important scientific discoveries. Shouldn't you be able to say the same thing about your career?

If working on interdisciplinary teams to tackle the most challenging scientific problems appeals to you, then join us as a postdoc at the laboratory. You'll get hands-on experience while working closely with leading scientific researchers and colleagues in your chosen field. Explore this website and contact us to learn more about the postdoc program at Lawrence Livermore.

- We have between 150-200 postdocs at any given time in all disciplines at the Laboratory
- Postdocs are selected for their scientific expertise, capability and enthusiasm for working at an institution that places a premium on scientific creativity and innovation
- Appointments are 1 and 2 years with a possible 3rd year renewal
- LLNL provides career development opportunities
