Science on Saturday

Biomolecular Action Movies: Flash Imaging with X-ray Lasers

Video Link:

[Flash Imaging with X-ray Lasers](#)

Presenters:

Matthias Frank, Megan Shelby – LLNL Scientists
Erin M. McKay - Biology Teacher – Tracy High School

Student Lecture Notes:

1. Before you watch the presentation ...
 - a. Why do you think proteins are important to life?
 - b. What do you know about X-rays?
2. Explain the relationship between Structure and Function.

<p>3. Understanding Scale</p> <table border="1" style="width: 100%;"><tr><td>1,000 meters</td><td>= kilometer (km)</td></tr><tr><td>1 m</td><td>= meter</td></tr><tr><td>1/100 m</td><td>= centimeter (cm)</td></tr><tr><td>1/1,000 m</td><td>= _____ (mm)</td></tr><tr><td>1/1,000,000 m</td><td>= _____ (μm)</td></tr><tr><td>1/1,000,000 m</td><td>= _____ (nm)</td></tr></table>	1,000 meters	= kilometer (km)	1 m	= meter	1/100 m	= centimeter (cm)	1/1,000 m	= _____ (mm)	1/1,000,000 m	= _____ (μm)	1/1,000,000 m	= _____ (nm)	<p>4. Describe an example of how structure reveals a proteins function</p>
1,000 meters	= kilometer (km)												
1 m	= meter												
1/100 m	= centimeter (cm)												
1/1,000 m	= _____ (mm)												
1/1,000,000 m	= _____ (μm)												
1/1,000,000 m	= _____ (nm)												

5. What are the limits of an optical microscope?

6. X-ray imaging: Describe

How Used:	Problem(s)	Crazy idea

7. SLAC: what surprised you and/ or impressed you?

8. What is meant by Biomolecular action movies: Flash imaging with X-ray Lasers?

9. Which example did you find more interesting Cathepsin B or Riboswitch? Why?

10. What research facility do you live near?
